1. The following is an examiner's statement of reasons for allowance: the Examiner found no teaching in the prior art that would render obvious the claimed antenna receiving system method and structure including "a second antenna configured to receive satellite signals from a second coverage area, wherein a transition zone exists where a portion of the second coverage area overlaps a portion of the first coverage area; and a processor being operable to receive satellite signals from the first antenna and from the second antenna and to compensate for differences of delays in the satellite signals received within the transition zone", claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore M. Blum whose telephone number is 703-305-1833. The examiner can normally be reached on Monday-Thursday.
